Information Sought : Pursuant to the recruitment advertisement dated 23.02.2021 for the post of Assistant Manager and subsequently its result declaration on the IIFCL website dated 24.09.2021, I am filing an RTI request to seek responses to below mentioned queries:

- 1) Pursuant to declaration of results for both Assistant Manager and Manager posts, Kindly inform whether there has been any overlap of selected candidate(s) (UR category) who got selected for both the posts?
- 2) If answer to the above query is Yes, then please inform whether the selected candidate has accepted the post of the Manager and subsequently would there be any movement of the waitlist in the Assistant Manager results for UR category candidates?
- 3) As per my understanding and basis Govt. Recruitment rules (for EWS) (copy enclosed), if a seat earmarked for EWS category does not get filled due to non-availability of a suitable candidate then such seat(s) cannot be carried forward to the next recruitment year (Please refer to clause 6.3 of the attached Document) as a backlog vacancy. Now, as per the results of Assistant Manager declared on 24.09.2021, there was 1 seat earmarked for EWS candidate which did not get filled, in light of the above provision, kindly confirm:
 - 3.a) Whether this vacancy (1 EWS seat) will be converted into the unreserved pool (UR candidates)?
 - 3.b) What would be the timeline for the same?
 - 3.c) Will there be any movement in the UR category waitlist subsequent to this conversion?
- 4) Please inform the type of Roster system applied for the Assistant Manager cadre- Whether 200 points or 13 points was followed for the above-mentioned recruitment?
 - 4.a) As per the above roster systems, if there are 10 vacancies, then seats allocation would be- UR(6), OBC(2), SC(1) and EWS(1). Please confirm?
 - 4.b) In this vacancy advertised for Assistant Manager position, the seats allocated for UR candidates were 5 instead of 6 seats. Kindly provide

the rationale for the same?

4.c) In case, there was an error in seat allocation (as mentioned above), then how would it be rectified? Also, provide the timeline for the same.
